Walking Beam Sprayers

Walking Beam Sprayer Division

For over 40 years, PBM Supply & Mfg., Inc. has been an innovative leader in the construction and manufacture of Agricultural Sprayers. It is our goal to provide each customer with easy access to one-on-one technical expertise for construction, operational and application specific assistance.

Attractive Pricing

By developing and manufacturing our product in-house, PBM Supply & Mfg., Inc. pricing is a major source of envy for our competitors. We strive to offer the best value on the market. *All pricing listed in this catalog is subject to change without notice.*

Location

Headquarters—Chico, California, USA. A rural upstate town located approximately 75 miles (120 km) north of Sacramento, with branch office locations in both Fowler and Murrieta, California, USA.

PBM Limited Warranty

"PBM Supply & Mfg., Inc." warrants to the end user that all new PBM Supply & Mfg., Inc. Agricultural Sprayers and other PBM Supply & Mfg., Inc.- manufactured products will be free from defects in workmanship and materials. The duration of this warranty and of all other warranties that may be applicable to the purchase is a period of one year from the date of delivery to the end user. (Please see the complete Limited Warranty details for specific legal rights and limitations).

Off-Road Versatility

Get on your fields early with PBM Supply & Mfg. Inc.'s Walking Beam sprayers. Walking Beam axle systems are designed with four wheels and a center pivot, offering excellent stability and weight distribution. The All Terrain Walking Beam sprayer line up holds PBM Supply & Mfg. Inc.'s quality with it's tubular steel frame, adjustable width axle, and 4-ply flotation tires. These sprayers are a great option for high volume spraying over moist, wet field and orchard conditions with low ground compaction.

PBM Supply's specially designed Walking Beam system provides a stable ride reducing boom bounce, which eliminates costly skips and errors in the field.

Give Your Sprayer a Lift

The High Crop Walking Beam system provides the same great flotation and stability of the regular Walking Beam, but gives the option to adjust height to clear young crops and adjust width for various field row spacing. These sprayers are ideal for row crop applications where the ability to adjust "on-the-fly" is needed, allowing you to get on the field early with an ATV, and later with a small tractor. One great sprayer for two big jobs.
